

Out of all the (technically half-assed) downloadable video game “bombshells” that fans have received over the years, this one is actually a pretty good one, just not because of anything the game does that’s fantastic, but because of what the game isn’t and how it’s so accurate to the original. In Hizashi no Naka no Riaru WALKTHROUGH, you play as a generic male with a standard set of moves. Unlike other games that make the male protagonist responsible for the change of body position after the man/woman duet, you have no super powers, no special abilities, no super armor, and your fighting force’s weapon of choice is a penis. You begin the game as a walking erect phallus with a frown on your face. Your mission is to make your way through each chapter in the game collecting bones, treasure, and an abundance of cum. You do this by beating other men to death. You also choose your style of fighting, from stealth to artillery. You pick your preferred killing method, then lock on to an opponent’s weak point and send him to the “cemetery” in the blink of an eye. After a chapter, there’s a brief sequence where you come across a town of women

---

who ask for help and then give you their bones. These bones are then put on your genital base, which allow you to perform some of the art moves of the game. You can also use your other two weapons for combat. One is a bullet-like projectile that basically destroys the game's "science team", who all happen to be women. The other is a giant lollipop, the size of a human brain, with razor-sharp edges that allow you to slice your opponents to pieces. The actual gameplay is pretty straight forward. The art moves and combat systems are derived from Rilakkuma, an adorable Japanese character. You move through the game using those art moves and spam the A button to unleash a barrage of super-powerful blows. In addition to the usual suspects, there's a "Brahma Sakhi" move that allows you to shoot a bunch of cum out of your genital base. The game does offer a nice variety of weapons, but they're all pretty generic. In the first chapter, you'

December 23, 2009 - by the way, a quick guide to getting a pink save. Day one, don't fuck with her boobs. . Hizashi no naka no real is neither. This is not just an attempt to be romantic, because romance cannot exist without love, even if it is not love. As a romantic, I have to be honest with you guys. Although I still love that bitch, I can still do what I want, and that doesn't mean that I will do things with her that she doesn't think is right. Hizashi no naka no real is not just another attempt to follow the rules. In case you're reading this, I'm not going to be here doing anything that doesn't go with her. fffad4f19a
