Candy.Font.rar Fonts.rar By comparing the two typefaces, it is hard to ignore the differences in the woodcuts and roman capitals. It can only be said that the letters were designed to match the woodcuts. Free Vintage Posters | Rainbow Brite, Popeye, and more... BBC's Jamie Bulloch: why digital TV is too early - mnemonicsloth ===== shib71 Disliked the layout, not a good place to read that article. Just glanced at the article, which I'm guessing it's going to be saying what it said, but was comfortable enough to continue reading. If I'd clicked the link, the article wouldn't have taken me much further. I've just added a feature request to the About page to force the Reader View option when clicking on links. — gb It looks a bit like Guardian HTML5. It's not too bad to read but when the article loads, the header and footer is still displayed. It's a bit like when you go to the BBC News website using Microsoft Edge. ----- mnemonicsloth See also A common problem faced by truck owners and operators is that of refrigerating the cargo. Refrigeration is desirable in such cases because it lowers the cost of the cargo to the owner. As a result, truck owners have tended to take the most expedient of means to refrigerate the cargo. In some cases, they utilize a solar powered air-conditioning system which utilizes the sun's energy to run a blower fan which circulates air over the cargo in a refrigeration cycle. This type of system has a distinct disadvantage in that a substantial amount of power is consumed by the blower fan, thereby depriving the truck of power that could be used to run other devices on the truck. Another disadvantage is that the solar-powered system is relatively expensive, especially in climates in which the sun is not available for a significant portion of the day. Another means of refrigerating cargo is to utilize an electrically powered air conditioning system. Such systems typically utilize an evaporator and a blower
